

# Antonio Piga

## Technical Manager

Technology leader positioned at the intersection of business strategy and engineering execution. I operate as a bridge between executive management and development teams, translating business objectives into scalable, secure, and high-performing digital architectures.

With a strong background in backend engineering and cloud-native systems (Java, Spring, Quarkus), I combine hands-on technical expertise with strategic decision-making. AWS Certified Solutions Architect, experienced in designing and governing cloud infrastructures aligned with organizational growth and regulatory requirements.

Used to working in Agile and DevOps-driven environments, I focus on transforming business processes into efficient digital solutions, enabling sustainable innovation and operational excellence.

## Education

2025-Ongoing  
**Executive Master in Management**  
*Politecnico di Milano (PoliMi)*

2017  
**Bachelor's Degree in Humanities**  
*Università degli Studi di Sassari*

## Expertise

- Java                      Aws Cloud Solutions Architect
- SQL
- AWS                        JetBrains
- Azure                     Backend Developer
- Git
- Maven                    Python

## Language

Italian: Mothertongue  
English: B2  
Spanish: C1

## Experience

### Head of IT / Technical Manager

*Romeo Founders SL - Madrid*

11/2024 - Present

Leading the technology strategy and IT operations of a Spanish SGR providing financial advisory services.

Defining system architecture, cloud infrastructure, and security standards.

Managing and scaling the engineering team, overseeing technical direction and delivery execution.

Aligning technology initiatives with regulatory, financial, and business requirements.

Establishing governance processes, DevOps practices, and operational workflows.

Acting as primary technical stakeholder for founders and executive leadership.

### Backend Tech Lead & Project Manager

*Azimut Marketplace - Azimut Group*

04/2024 - 12/2025

Led backend engineering initiatives for a fintech marketplace within Azimut Group.

Designed and supervised scalable microservices architectures in cloud-native environments.

Coordinated cross-functional teams, ensuring alignment between business objectives and technical execution.

Oversaw delivery timelines, architectural decisions, and system reliability.

Contributed to cloud strategy leveraging AWS services (EC2, Lambda, S3, RDS).

Promoted DevOps culture and CI/CD best practices.

### Backend Developer & Project Manager

*Be | Shaping the Future - Engineering SPA Group*

05/2021 - 04/2024

Clients: Nexi, Step, Cotral, Yolo

Delivered backend solutions for fintech and enterprise clients using Java (Spring, Quarkus), Hibernate, and JPA.

Designed and maintained scalable microservices architectures.

Managed small engineering teams and coordinated project activities.

Collaborated with stakeholders to translate business requirements into technical solutions.

Contributed to cloud-based deployments and containerized environments (AWS, Docker).

Supported governance and architectural decision-making processes.

### Solutions Architect

*Nuvolaris Inc.*

08/2023 - 03/2025

Led deployment and integration projects leveraging OpenWhisk and cloud-native technologies.

Coordinated technical teams and client stakeholders across international environments.

Oversaw SvelteKit deployment strategies and solution architecture.

Provided technical pre-sales support and client requirement analysis.

Ensured alignment between technical implementation and business objectives.

Backend Developer

## EDUCATION

### Executive Master in Management

*Politecnico di Milano (PoliMi) - Ongoing*

Focus on business process transformation, digital strategy, and organizational management.

Specialization in transforming traditional business models into scalable digital ecosystems.

### Bachelor's Degree in Humanities

*Università degli Studi di Sassari - 2017*

## CERTIFICATIONS

- AWS Certified Solutions Architect - Associate (Issued July 2023)
- Project Management Certification - In Progress
